THE SOLE THAT WILL OUT-WEAR THREE ORDINARY SOLES

APPLIED ONLY BY US

THROUGH Adwear Soles a new significance has been given to shoe repairing. This process—or it is not a leather substitute—costs slightly more than ordinary soles, and it will make soles last longer than three of the usual kinds. We honestly believe that this process will, within a short time, make an ordinary sole only a memory.

YOU Letter Carriers, Policemen, and other men or women who walk a great deal need ADWEAR. The regular Boy or Girl will have to be rougher than usual to make any impression on ADWEAR.

She Gained 33 Pounds

Among the most interesting cases of nerve quiet and increase in weight credited to the aid of Bitro-Phosphate is that of Mrs. Rosa Harris who was thin and nervous when she began using Bitro-Phosphate. While using Bitro-Phosphate she gained 33 pounds, a desirable weight for her. The improvement in Mrs. Harris' appearance was so great, that friends of hers were amazed. The pictures accompanying this article show the delightful weight increase. Many other cases.

Bitro-Phosphate aids in overcoming many cases of nervousness, brain or mind fatigue, tendency to hysteria, melancholy or breakdown, sleeplessness, lack of self control, nervous spells. Gain new energy and inspiration!

This whole publication could be filled with statements of those who tell of the efficiency of Bitro-Phosphate in increasing nervousness, weakness and allied troubles, and in restoring nature to increase weight steadily, healthily, lastingly. Be well! Be happy! You should add years to your life, and have far more contentment, by using Bitro-Phosphate. During Wednesday's rain storm a small boy jostled against the weighing machine in front of the Nash store, and down went the machine and the boy, carrying with them the display shelf in front of the show window. The boy was not hurt, the shelf was smashed, and the automatic weigher emitted many one-cent pieces, but not in the ordinary way. The machine was righted, and was given a shaking and out rolled the pennies, all coming from the bottom of the weighing platform. That machine was shook until it failed to cough up coin. Then it was set aside and placarded out of order. Policeman Curtin was the first to come to the relief of the small boy.

There are strikers in Westerly demanding from 75 cents to \$1 an hour for an eight-hour day. If the pay is raised the people will pay the price. It is reported that the strikers are in pay, far below the standard set by common laborers. These strikers are required to work twelve hours a day on regular pay, and are paid less for twelve hours than the laborers were paid for eight hours, even before the beginning of the present strike.

PUTNAM

(Continued from Page Six)

their work in mills here and in Mechanicville are at all interested in being employed, there is a mountain of work awaiting their attention on the farms in this section of Windham county. While the farmers are crying for help, they do not come, upwards of 100 men are walking the streets in Putnam and vicinity. This fact has been noted by some farmers who transact much business in this city. The farmers who would employ these men, now out of work, offer steady work until next fall, and there are many places open on farms where men can have steady employment the year around.

"We want to feed the nation," we want to produce enough so that living costs will come down; we have the land and the equipment to turn out wonderful crops, but we have got to have help to do it. This was the declaration of one farmer who was in this city shopping Wednesday morning.

And he continued:
"If these strikers who are discontented will come out onto the farms, we'll give them steady employment in a line of work where they will be performing a real service toward cutting the cost of living, and we will pay them well—not less than \$10 a week, but higher wages than ever were paid on farms before in New England. I understand there are many unmarried men among the strikers. These men would be ideal in forwarding the work of feeding the nation. Will they come to the farms? Well, I don't think so. I am not impressed that they are sincere in their wrangling over living conditions. If they were really pinched, they wouldn't have any trouble at all in getting more help than we need. And until they are pinched—and that day will
